

13 Cup Separator & Forming system

original cup collection

Temma Cup Separator (TCS)

The "Temma Cup Separator (TCS)" is the culmination of our technology and know-how we have built over the years in design and manufacturing of molding machines for paper containers. This system provides automation of cup supply. Our technical department will give their full support while you are setting up and introducing the system and will continue with after-sales support. If you are thinking about saving labor and improving efficiency in cup supply, please contact our sales representatives about our solutions.

The Five benefits of the TCS

1.

Laborsaving
Automated supply of cups saves you a lot of labor.

2.

Improving productivity
Improving cup supplying capacity will improve overall productivity.

3.

Support
Our technical department will look after your needs from helping with introduction and setup of the system through after-sale service.

4.

Variety
TCS doesn't just work with our products, but with any containers you wish.

5.

Reasonable pricing
The equipment itself is priced very reasonably and our cups are also economical.

Temma forming system

1

PRESS SYSTEM

Board press mould products

This system produces shallow, strong paper trays such as paper plates and food containers.

Thin paper press mould products

This system produces a great variety of forms, for example tulip-shaped baking cups.

Thin paper multi-press mould products

This system produces many cups with one press which saves cost, like glassine cups.

Composite paper press mould products

This system produces cups that are composite, for example PET and paper, meaning that we can produce even more functional containers.

Aluminum foil press mould products

We can produce a wide variety of shapes by utilizing the characteristic of aluminum foil.

2

ROLL UP SYSTEM

Muffin cup mould products

We can produce a wide variety of muffin cups which are standard items in any bakery.

Tubular composite paper mould products

This system produces jelly and mousse containers from composite paper. There are also many other possible applications.

Tubular press mould products

This system makes all sizes, from small cups all the way up to large sizes.

3

LARGE CUP SYSTEM

Tubular board mould products

This system produces large paper cups ideal for assortments of sweets or foods.

Tubular mould products with center barrel

This press makes it possible to make cake cups with a center barrel, such as for making chiffon cakes.

Shallow tubular mould products

This makes it possible to make shallow and wide cups from cardboard or fluteboard.

4

FLEXIBLE FORMING SYSTEM

Large flexible mould products

This flexible system makes it possible to create any shapes by using our proprietary moulding system.

Small flexible mould products

This mould produces small, cute shapes that are perfect for mascot style items.

5

ROLLING SYSTEM

Spiral mould products

This produces cylindrical or conical forms paper for the cercle or centers when making cornets.

6

STACKING FORMING SYSTEM

Stacking SD mould products

This produces tapered trays for stacking using a variety of materials in a variety of shapes and sizes.

Multifunctional stacking mould products

We can produce any shape you need for any function or application you can think of.

We go beyond in our technical know-how

We, TEMMA have been successfully developing many products which were difficult to produce by existing mechanical equipments by designing and building our own new moulds and forming machines.

We continue to turn our creative ideas into unique, high-quality products by maximizing our technical know-how we have acquired over many years.

- Use our products to promote your fast food

Our stacking cartons find many applications as trays for takeaway purpose.

- Double cartons for set packages

The double carton type for hamburgers can be formed into a variety of shapes to attract the eye of your customers.

- A rich variety and widening applications

Package individual sweet containers in our paper trays. We will propose the best shape to suit your design and distribution method.

- Japanese style doublefolding cartons

If you are making Japanese style sweets with nature in mind, please try our paper containers. They will bring out the seasonality of your products.

A variety of designs for banquet lunches and other meals. Paper will help your cooking stand out and create an atmosphere.

- A new way to package fresh fruit and vegetables

These trays are made from paper that is much stronger than ordinary paper which protects the contents. Depending on the design on the paper, they can also serve as an effective advertisement.
